YaraTera™ KRISTA™ MAP

YaraTera KRISTA MAP is a fully water soluble nitrogen and phosphorus fertiliser. It is a free flowing, fine crystalline powder which dissolves quickly in water without any residues.

Soluble grade Mono Ammonium Phosphate			
Total N	12.0%	Solubility (20°C)	360 g/l water
Ammonium N	12.0%	EC (1 g/l at 25°C)	0.8 mS/cm
Phosphorus (P2O5)	61.0%	pH (1% solution)	4.5
Phosphorus (P)	26.6%		

Benefits

Phosphorus essential for root development
High phosphorus levels in the soil at planting or transplanting will improve crop establishment and development.

Suitable for applications in hydroponics
YaraTera KRISTA MAP is ideally suited for applications in hydroponics. Because it contains ammonium nitrogen, it is advisable to keep restrict its applications to one tenth of the total nitrogen in the formulation.

Compatibility
YaraTera KRISTA MAP can be mixed with all water soluble fertilisers, except soluble calcium fertilisers and concentrated magnesium solutions.

pH buffer
The phosphorus component in YaraTera KRISTA MAP buffers fertigation solutions, keeping the pH stable at around 4.5.

Fully water soluble
YaraTera KRISTA MAP is a fully water soluble nitrogen and phosphorus fertiliser.

Suited to application through all fertigation system
YaraTera KRISTA MAP is suited to application through all fertigation systems - hydroponics, drip systems, low throw sprinklers, centre pivots and spray units.

High Quality
YaraTera KRISTA MAP is free of chlorine, sodium and heavy metals.
